A Gift in Tribute

Donations to the Art Museum of Southeast Texas can celebrate a birthday, anniversary or another important occasion, express your sympathy or honor the memory of a loved one.

A meaningful and lasting way to celebrate a special occasion or to honor family members or friends is to make a commemorative gift to the Art Museum of Southeast Texas (AMSET). When you make a gift to AMSET in honor or in memory of a loved one, a personalized card in acknowledgment of the gift is sent to the individual or family being remembered, without reference to the size of the gift. The person honored will also be listed in AMSET's quarterly newsletter.

Through your gift you not only commemorate an important date or special person, but you also provide important financial support to the Art Museum of Southeast Texas. Your support allows us to continue working to fulfill our mission of providing education, inspiration and creative vision throughout our community.

Many community members and friends have included AMSET in their legacy over the last several decades. A tribute gift of any size includes you and those you love in a vital tradition of generosity that enhances the cultural community of Southeast Texas. Donations also make a difference in many children's lives through AMSET's many educational art programs.

Opportunities for permanent recognition at AMSET are also available. You may wish to create a named endowed fund or endow a special program or gallery. For more information on these special commemorative opportunities, please contact Executive Director Lynn Castle at (409) 832-3432.

“The Art Museum of Southeast Texas sits deeply in my heart as a source of inspiration, visionary thinking and connection for all people and all types of families. Giving a gift of art or financial aid in honor of an individual is about as deep as one might experience my soul.

It reminds me of a quote from Mother Teresa: ‘We cannot do great things on this Earth, only small things with great love.’”

-Rob Clark, AMSET supporter
